

# DINKY TOYS

# DINKY TOYS

BOYS! START THIS FASCINATING COLLECTING HOBBY TO-DAY!

Dinky Toys collecting is one of the most fascinating of all hobbies. These wonderful miniatures are unique in their realistic accuracy, rich colouring and perfection of finish.

The Dinky Toys Series is always up to date. Nowadays everybody is interested in the mechanised units of the British Army, and among the most popular Dinky Toys models are the two Royal Tank Corps Sets. These have been followed recently by a Mobile Anti-Aircraft Unit and an 18-Pounder Quick-Firing Field Gun Unit, which promise to enjoy even greater popularity.

Many of the Dinky Toys are splendid for adding realism to Hornby and Hornby-Dublo railway layouts; others, such as the Traffic Signals, Road Signs and Motor Vehicles, are ideal for making up fascinating road scenes.

Hours of fun can be had in playing with these miniatures. Exciting race games can be devised for the Sports Cars, and thrilling gliding races can be held with the Aeroplanes.

All Dinky Toys can be bought separately, and many also in complete sets.

**Owing to difficulties that have arisen in recent months, we regret that it has been found necessary to suspend the manufacture of certain Dinky Toys. These items will be reinstated as soon as conditions permit.**

| No. 39f | Studebaker "State Commander" Coupé | ... | ... | "    | 1/- |

Price of complete set 6/-

The six models in this fine set are accurate scale miniatures of outstanding modern cars, each beautifully enamelled in attractive colours.

The Packard "Super 8" Touring Sedan is a typical example of a modern American luxury car. It has an eight-cylinder 32.5 h.p. engine, and a four-door body capable of seating five passengers.

Another big roomy car is the Oldsmobile "Six" Sedan, which is a five-seater powered by a six-cylinder engine rated at 28.4 h.p.

One of the most distinctive American cars is the Lincoln "Zephyr" Coupé, which seats three passengers. It has a body of very advanced streamlined design and a V-type 12-cylinder engine of 36.3 h.p.

The Buick "Viceroy" Saloon also has a very distinctive appearance, due to the beautifully streamlined design of the front wings and the bonnet. Its engine has eight cylinders in line and is rated at 30.6 h.p. The gear lever is mounted on the steering column.

A good example of a seven-seater car of the sedan type is the Chrysler "Royal." A safety all-steel body with a seamless top is fitted, and the six-cylinder engine is rated at 27.34 h.p.

The attractively streamlined Studebaker "State Commander" Coupé is powered by a six-cylinder engine of 26.35 h.p. The gear-box is fitted with remote control from a lever on the steering column. The body is of one-piece seamless steel construction.

## REFUELLING TENDER

Dinky Toys No. 60y

A modern airport must have facilities for quickly refuelling aircraft visiting it. This provision takes the form of mobile refuelling tenders which are driven across the aerodrome to the waiting aeroplane. The fuel is transferred from the tender into the tanks of the aeroplane through flexible pipelines. This model is an accurate reproduction of the Thompson Bros. refuelling Tender.

Price 10d. each

**HAWKER "HURRICANE"  
SINGLE-SEATER FIGHTER**  
(Camouflaged)

Dinky Toys No. 62h

Scale model of the Hawker "Hurricane" single-seater fighter extensively used by the R.A.F. Price 7d. each

The Hawker "Hurricane" is a recent type of high-speed single-seater fighter that is extensively used by the Royal Air Force. It is fitted with a Rolls-Royce "Merlin" engine and can attain a speed of 335 m.p.h. at 17,500 ft. It takes only 9 minutes to climb to a height of 20,000 ft.

The "Hurricane" is very heavily armed, having eight machine guns, four inside each wing, all firing outside the radius of the airscrew.

60H

## R.A.F. AEROPLANES

60N

Dinky Toys No. 61

60P

This interesting Set contains miniatures of three contrasting types of R.A.F. aircraft. The outstanding item is a fine model of the Short "Singapore III" flying boat, a type used by several General Reconnaissance squadrons and by the R.A.F., Iraq Command. The smaller, single-engined machines are Fairey "Battle" two-seater medium bombers, one of the earliest of the modern streamlined monoplanes of this class, and Gloster "Gladiator" single-seater fighters. The "Gladiator" is a development of the famous "Gauntlet," and is armed with four machine guns. It has a top speed of 250 m.p.h.

Dinky Toys No. 62y

Similar in type to Junkers Ju 90 Air Liner. Assorted colours.

Price 1/2 each

## MAYO COMPOSITE AIRCRAFT

Dinky Toys No. 63

The Composite Aircraft was invented by Major R. H. Mayo and built by Short Bros. (Rochester and Bedford) Ltd., to the order of the Air Ministry for experimental flights by Imperial Airways. The object of this aircraft is to solve the problem of getting a heavily loaded long-range machine into the air, by lifting it on the back of a larger machine from which it takes off, the lifting machine then returning to its base.

Among the fine flights achieved by the upper component, the seaplane "Mercury," after being launched in this way, are the following: July 1938, Foynes, Eire, to Montreal and New York, 3,240 miles; October 1938, Dundee to the Orange River, South Africa, 6,045 miles. "Mercury" has a top speed of 212 m.p.h.

Scale model of the Mayo Composite Aircraft. Price 2/4 each. The components of the above can be purchased separately. No. 63a Flying Boat "Mercury" ... each 1/6 No. 63b Seaplane "Mercury" ... .. 11d.

## PRESENTATION AEROPLANE SET

Dinky Toys No. 64

This splendid presentation Set of miniature aircraft contains an interesting range of British light civil and military types. There is the D.H. "Comet," famous for its record flights to Australia and New Zealand, Hawker "Hurricane" single-seater fighter, in both camouflage and aluminium finish; the Airspeed "Envoy" of the King's Flight and the commercial version of this machine, and finally a neat model of the seaplane "Mercury" that forms the upper component of the Mayo composite aircraft.

Price 4/-

*Not only are Dinky Toys delightful to look at and fascinating to play with, but they have the great virtue of being made with a zinc alloy which is practically unbreakable. They will stand up to all the knocking about and rough usage that may be their lot in the hands of very young children, and yet retain their shape and rich colouring.*

"DOLLY VARDEN"  
DOLL'S HOUSE

The exterior of this beautifully-designed Doll's House represents a half-timbered dwelling, while the interior decorations, which are printed in nine colours, are in an attractive modern style.

Reinforced leather board is the material of which the house is constructed, and although it is collapsible it is as strong as a wood structure when set up. The container, which also is made of reinforced leather board, opens out to show a lovely garden, with tennis lawn, carriage drive and rockery.
