FIFTY NEW MODELS GUARANTEED TO ACCELERATE YOUR SALES.

This year Dinky have produced more new models than ever before. Over 50 in all. They start from as little as 59p and go up to £5.75. Which also means that there's now a much wider price range to choose from.

When it comes to making models we aim to lead the world, which is why we plan to introduce even more new models later this year.

Throughout the range you'll find models with special features to add that touch of authenticity, such as opening doors, realistic trim and many more moving parts.

And they'll all be backed up with plenty of new point of sale material.

As you can guess Dinky will be making a lot of noise this coming year. See the new models and the existing range at the Airfix Stand, Level 2, Stand G2 at the International Toy Fair at Earls Court.
