

# Boys! Build your own Model Aeroplanes

These new Meccano Aeroplane Constructor Outfits are great! They enable you to build wonderful models of aeroplanes, the most realistic you ever saw.

Complete instructions are included in each Outfit showing how to build a number of different types of machines, both monoplanes and biplanes. Many other splendid models may be built by varying the positions of the parts, which are all interchangeable on the famous Meccano principle.

If you want to know something about aeronautics buy an Outfit to-day. Your dealer will be pleased to give you full particulars.

*Manufactured by  
Meccano Limited  
Old Swan, Liverpool*

## Boyhood's Best Days — Building With Meccano

*A fine Meccano model  
of the "Tower Bridge" London*

### A Thousand Toys in One

If you want to have the happiest possible boyhood, be a Meccano model-builder. There is no other hobby in the world half so wonderful or half so fascinating.

A Meccano boy is able to build hundreds of splendid working models with the greatest of ease. One day a crane, the next day a fine replica of the famous Tower Bridge (illustrated above), the day after an aeroplane, or a motor car or a lathe or loom. Day in and day out there is always something different to build, some new thrill to enjoy.

Meccano models are real engineering models because they are built with real engineering parts in miniature—Nuts and Bolts, Girders, Plates, Gear Wheels, Pinions, Cranks and scores of others that can be used over and over again to make hundreds of different models.

Think of the endless fun you could have with Meccano and make up your mind to get an Outfit at the first opportunity!
