

# MECCANO® Magazine

QUARTERLY

THE MECCANO MODELLER'S OWN HOBBY JOURNAL.

Details and Subscription Form overleaf.

# For only 90p a year you can keep up to date with what's happening in Meccano model making.

"Meccano Magazine Quarterly" (MMQ) is *THE* magazine for Meccano modellers. It gives a regular supply of new models to build – big and small; built from particular Meccano Sets, and "special" non-set models. It gives hints on ways of overcoming problems and improving model-building and it features useful mechanisms to bring added movement to your models.

MMQ is very much the Meccano modellers' *OWN* magazine. It features models built by readers and brings ideas and news from readers to readers. It includes regular reports from Meccano Clubs around the world and generally keeps everybody in touch with current Meccano activity.

MMQ is published four times per year in January, April, July and October. The current annual subscription rate (4 issues) throughout the U.K. and world is 90p when the magazine is sent by surface mail. (Overseas subscribers may receive their magazine by Air Mail at the special

rates shown on the bottom of this leaflet.)

Why not take out a subscription to the magazine? There's a subscription form below; all you have to do is fill it in and return it, with your remittance, to the address on the form. We'll automatically send you your magazine as soon as it is published for as long as your subscription lasts.

But whether or not you take the MMQ, the Editor of the magazine is always looking to Meccano modellers for material to publish in the magazine. If you have built an interesting model or have any hints, suggestions or general news – in fact, anything you think may be of interest to other Meccano modellers – please contact the Editor. He will always be delighted to consider anything for publication, no matter how small it may be.

Hope to see you in the pages of the MMQ!
