REAL ENGINEERING IN MINIATURE

*Look at this fine  
Crane I've built!*

**Y**EAR by year Meccano becomes more firmly entrenched as the World's Greatest Hobby for Boys. It is unique because it appeals, not to the boys of one country alone, but to the splendid spirit of boyhood that is common to all the nations of the world.

Meccano satisfies the great craving of boyhood to make things that will work. A Meccano Outfit provides the means of constructing a variety of models that are reproductions of the "real thing," and can be set to work in the most realistic manner.

If you want to have the happiest possible boyhood, be a Meccano model-builder. If you want to be imaginative and resourceful—if you want your days to be full of fun and thrills—be a Meccano model-builder.

Meccano is more than a toy, it is the greatest hobby of the century.

## WEAR A "MECCANO ENGINEER" BADGE

All keen Meccano model-builders should wear a "Meccano Engineer" Badge and thus be able to recognise each other when they meet. The badges are obtainable from your Meccano dealer, price 2d., or direct from Meccano Limited, Binns Road, Liverpool 13, price 2d. post free.

## X SERIES OF OUTFITS

*Big Wheel*

### No. X1 Outfit Builds 70 Models

A fine range of sturdy models can be built with No. X1 Outfit. Examples of 70 are given in the illustrated Instruction Folder that is included, while keen model-builders will derive great satisfaction from building additional models of their own creation.

This Outfit is the finest value in constructional toys ever offered to boys.

Price 1/3

THE Meccano X Series of Outfits gives an added interest to the fascinating pastime of Meccano model-building. The main feature of the series is a specially-designed type of strip  $\frac{3}{4}$ -in. wide, available in various lengths, and pierced with holes  $\frac{1}{4}$ -in. apart. The models made with these strips are extremely attractive and effective. That of the Big Wheel illustrated here is an example of the type of super model that can be built with Meccano X Series parts. These parts can be used in conjunction with standard Meccano parts and accessories, and they may be obtained separately.

### No. X2 Outfit Builds 96 Models

THE additional parts contained in No. X2 Outfit enable models of a bigger and better type to be constructed, including a modern Battleship and Submarine, Steam Shovel, Windmill, Swing Bridge and Railway Breakdown Crane. The total number of models shown in the Instruction Folder included in this Outfit is 96, but scores of others can be made by inventive boys ... Price 2/-

## POWER UNITS

IN order to obtain the greatest possible enjoyment from the Meccano hobby, the models should be set to work by means of one of the Meccano power units described on this and the next page. Each of these units has side plates and base pierced with the standard Meccano equidistant holes, so that it can be built quite easily into any Meccano model.

The accompanying illustration shows a Meccano Traction Engine model, fitted with a Meccano Electric Motor, hauling more than ten times its own weight.

## Meccano Clockwork Motors

These are the finest clockwork Motors obtainable for model driving. They have exceptional power and length of run and their gears are cut with such precision as to make them perfectly smooth and steady in operation.

## POWER UNITS

### Meccano Electric Motors

THE five Meccano Electric Motors listed below have been designed specially to provide smooth-running power units for the operation of Meccano models. The 6-volt Motors may be operated either from a 6-volt Accumulator or through a Transformer direct from the mains, providing that the supply is alternating current. They cannot be run satisfactorily from dry cells. The 20-volt Motors are most conveniently operated through a 20-volt Transformer from alternating current supply mains.

Each Motor is a highly efficient power unit and, with ordinary care, will give long and excellent service.

# HORNBY

## SPEED BOATS

NOTHING like the new Hornby Speed Boats has been known before in model speed boat construction. Here are some of the special features of these wonderful boats—streamlined hull and fine entry lines of bow giving great speed; exceptional length of run due to the excellence of the mechanism by which the boats are propelled; special design of propeller; and all parts attractively finished with a special patent water-resisting enamel in a range of choice colour combinations.

**HORNBY SPEED BOAT No. 1. "MARTIN." PRICE 3/11**

Hornby Speed Boat No. 1 is a very efficient model, measuring  $8\frac{1}{2}$  in. in length and  $2\frac{3}{8}$  in. in beam. It will travel over 160 feet on one winding. Finished in three different colour combinations—red and yellow, blue and white, and orange and green.

**HORNBY SPEED BOAT No. 2. "SWIFT." PRICE 7/6**

The exceptionally fine performance of Hornby Speed Boat No. 2 makes it one of the most popular of the Hornby models. It will travel over 300 feet on one winding. Finished in three different colour combinations—red and cream, blue and white, and yellow and white. Dimensions: Length  $12\frac{1}{2}$  in. Beam 3 in.

The Hornby Speed Boat Clockwork Motors and Propellers and Shafts are available separately for boys who prefer to build their own Speed Boats. The prices are as follows:—

Hornby Speed Boat No. 1 Clockwork Motor	Price 1/9	Propeller and Shaft ...	Price 4d.
Hornby Speed Boat No. 2 Clockwork Motor	Price 3/-	Propeller and Shaft ...	Price 5d.
Hornby Speed Boat No. 3/5 Clockwork Motor	Price 4/-	Propeller and Shaft ...	Price 6d.

## CHEMICAL OUTFITS

### FOR CHEMICAL FUN !

THE contents of the new Kemex Chemical Outfits will provide many hours of fascinating fun. With the apparatus and materials contained in them a boy can make inks and soaps; dye wool, cotton and silk, and bleach fabrics that are already dyed; test foodstuffs for impurities; analyse air and water; grow crystals; write with electricity; smelt metals from their compounds; make invisible inks and a chemical garden; prepare gases, and perform a host of other interesting chemical experiments.

### Everything quite simple

The Outfits include everything necessary, and the hundreds of experiments that can be made are described in a simple manner in an attractive Manual that is included in each Outfit. The Manuals are illustrated with a series of actual photographs showing how the apparatus required is fitted up, and the manner in which each experiment is carried out.

### No. 1 Kemex Outfit

130 Experiments.

THIS Outfit contains a supply of specially selected chemicals, packed in airtight containers, together with a length of Magnesium Ribbon, sufficient to perform 130 attractive and varied experiments. The apparatus provided in the Outfit includes Test Tubes and a Test Tube Holder, a Funnel, Filter Papers, and two Glass Delivery Tubes, with a simple and highly-efficient Spirit Lamp that makes the Outfit completely self-contained.

## CHEMICAL OUTFITS

### No. 2 Kemex Outfit

250 Experiments

THIS Outfit includes the whole of the contents of the No. 1 Outfit, and further chemicals that increase the range of experiments up to 250. The additional apparatus includes a porcelain Evaporating Dish, Special Test Tubes to withstand high temperatures, a handsome Test Tube Stand, and an Evaporating Stand including a Ring, with Wire Gauze.

Price ... .. 15/-

### No. 3 Kemex Outfit

350-400 Experiments

THIS is a splendid complete Outfit that provides a boy with all he requires to carry out between 350 and 400 experiments, and thus enables him to acquire a sound knowledge of the fascinating principles of chemistry. The Outfit includes the contents of the No. 2 Outfit, with additional chemicals and apparatus. The latter includes a gas-generating apparatus, consisting of a large Wide-necked Flask with Thistle Funnel and Delivery Tubes, and a Blowpipe and a Charcoal Block. These items open up a series of experiments of outstanding interest. There is also an extension for use on the Evaporating Stand, to which apparatus may be readily fitted on similar lines to those adopted by actual chemists.

# ELEKTRON

## ELECTRICITY!!!

### The most Wonderful Force of the Age

THE Elektron Outfits provide the necessary material for a progressive series of experiments in magnetism, frictional electricity, current electricity and electroplating. They contain the parts required to construct a Reading Lamp, Electro-magnets, an Electric Bell, an Electric Telegraph, a Shocking Coil and Electric Motors, all of which can be worked from a Bichromate Cell built up from materials included in the Outfit.

Each Outfit is packed in a handsome box, and includes a Manual, splendidly illustrated with actual photographs, giving full directions and explaining every experiment in simple language.

#### No. 1 Elektron Outfit

##### Magnetism and Static Electricity

THE No. 1 Outfit contains two powerful Bar Magnets and a reliable Magnetic Compass, together with everything necessary for the carrying out of a series of fascinating magnetic experiments. In addition there are materials for experiments in frictional or static electricity, and for the construction of an Electric Compass and two forms of Electroscopes. There are also parts for constructing a splendid portable Reading Lamp.

A No. 1A Elektron Accessory Outfit converts a No. 1 Elektron Outfit into a No. 2. Price 16/6

#### No. 2 Elektron Outfit

##### Magnetism, Static and Current Electricity

THE No. 2 Elektron Outfit contains all that is included in the No. 1 Elektron Outfit, with additional parts that enable a splendid series of experiments in current electricity to be performed. Among these are a Horseshoe Magnet, Coils and Yokes required for the construction of Electro-Magnets that can be used in building a real Electric Bell, and a Buzzer for use in an electric telegraph system. A specially-wound coil and other necessary parts are supplied for assembling into a Shocking Coil that will give hours of fun and excitement; and from other components two different working Electric Motors may be built. Electroplating is among the other fascinating experiments that can be performed with this Outfit.
