The Perfect Table Railway — Gauge OO

EDG7 Goods Train Set
G.W.R.

EDP1 "Sir Nigel Gresley"
Passenger Train Set
L.N.E.R.

EDP2 "Duchess of Atholl"
Passenger Train Set L.M.S.

Hornby-Dublo Trains are built to standard "OO" Gauge, which means they are approximately half the size of Hornby "O" Gauge. They are 12-volt Electric and power is obtained from Alternating Current mains through a Hornby-Dublo Transformer and a Hornby-Dublo Controller. Starting, stopping, reversing and speed regulation of Hornby-Dublo Electric Locomotives are all carried out from the lineside by the movement of a single lever on the Controller. All Hornby-Dublo Coaches, Vans and Wagons have automatic couplings.

Hornby-Dublo Transformers are NOT included in the Sets.

MECCANO

Real Engineering in Miniature

Meccano is a system of interchangeable parts—strips, plates, gears, wheels, nuts and bolts, etc., with which any boy can build hundreds of magnificent models that work just like the "real thing."

MECCANO ACCESSORY OUTFITS

Each Meccano Outfit can be converted into the one next larger by means of an Accessory Outfit. A No. 0 Outfit can be converted into a No. 1 by adding to it a No. 0a Accessory Outfit, and a No. 1a would then convert it into a No. 2. In this way, no matter with which Outfit a boy begins, he can build it up by degrees until he has all the parts contained in the largest Outfit.

DINKY BUILDER

The Simple Building Toy

Simplicity is the keynote of this fascinating building system. With Dinky Builder hinged plates and rods, the younger children can build all kinds of models with the greatest ease—Lorries, Furniture, Buildings, Wheel Toys, Windmills and scores of others. The parts are enamelled in blue and yellow and can be used over and over again. Nuts and bolts are not used in this system. A No. 1 Dinky Builder Outfit can be converted into a No. 2 Dinky Builder Outfit by the addition of a No. 1a Accessory Outfit.

	Price
No. 1 Dinky Builder Outfit	10/6
No. 2 Dinky Builder Outfit	21/-
No. 1a Accessory Outfit	10/6

Two of the many fine models that can be built with No. 1 Dinky Builder Outfit.
