Model-Building the Modern Way

The constructional details of the models shown in this Leaflet are explained by means of photographs and line drawings. There are no tiresome instructions to read through and you will find it great fun building models by this new system – it is, in fact, rather like a real engineer working from his 'blueprints'!

Once you have got the knack of 'reading' the drawings, you will find the construction of the models quite easy to follow. Generally the particular Meccano Parts used in the building of a model can be identified simply by looking at the illustrations, but where the identity of a Part may not be quite clear, its Part Number is indicated in the illustrations in RED.

Still More New Models for you to build!

If you are on the look-out for more new models you should make sure that you see the *Meccano Magazine* each month. This attractively produced periodical caters particularly for Meccano model-builders and each monthly issue (price 1s. 3d.) contains details and illustrations of new models and mechanisms of all kinds specially designed by 'Spanner' to meet the needs of both beginners and advanced model-builders. Details of attractive Meccano model-building competitions also appear in the Magazine and these will provide you with a splendid chance to win a cash prize for your model-building efforts.

You can order the *Meccano Magazine* from any Meccano dealer or newsagent.
