## WITH BETTA BILDA ACCESSORIES

# BETTA BILDA

BEECHROFT & SONS, LTD.  
18, PELHAM ST.  
NOTTINGHAM.

Yes! that's the Empire State Building there on the right, built with Betta Bilda standard components, just the same bricks, bases and windows which you get when you buy a Betta Bilda Set. They're made of polystyrene, which means the pieces put together firmly and take apart again as often as you want.

They're in different colours too, bricks, doors and windows in red and white, and tiles in green, and as the doors are just over one inch high your Betta Bilda models will be the right size to go with any 'OO' or 'HO' Gauge Train Set. Betta Bilda is so easy to use and it's fun for the whole family. Sets cost from 5s. 11d. and with the Accessory Packs shown on the back cover of this leaflet there is just no limit to the shape and size of building which you can make—even the Empire State Building.
