

Hello Boys! Big Fun!!

REG. U.S. PAT. OFF.

There is no end to the number of wonderful models you can build with **ERECTOR**. Look at that realistic battleship! Then imagine the fun and fascination of building hundreds of other models just as interesting—forts, bridges, skyscrapers, machinery, aeroplanes, etc.

Just as soon as you have built the models which are illustrated on the reverse side of this sheet, then go to your Toy Store and ask to see the larger Erector Sets. With the advanced Erector Outfits you can make models of everything in engineering.
