

EZY-BILT

the master toy
*can grow with
your children*

As soon as your boy can put a nut on a screw he will be ready for his first EZY-BILT set.

The easy-to-follow instruction books show him how to make all types of models—cranes, trucks, swings, roundabouts—and as he grows older he will create his own models.

EZY-BILT is more than a toy, it provides the early training, developing a boy's talents as a handyman, and there are sets in eight different sizes, with which you can start his interest.

This is the one gift that you can be sure that any boy will appreciate and use often. See the wide range of sets.

All EZY-BILT sets are attractively packaged in strong boxes, and the boy who shows real enthusiasm can add to his set by buying a conversion set. For instance Set 1 becomes Set 2 with the addition of Conversion set 1A. In addition any EZY-BILT part can be bought as a separate item at the toy shop or department that sells EZY-BILT. Check the following price list, then ask to see EZY-BILT when next you're looking for a gift for a boy.

PRICE LIST

SET 1	will make over 25 models	13/11
SET 2	" " " 50 "	21/11
