

repair hints

JUNEERO is a real treasure to the handyman. A big proportion of the many little repair jobs that crop up in the home can be fixed quickly and efficiently with the aid of JUNEERO.

The sketches here are suggestions, almost at random, of the many useful repair jobs for which JUNEERO is the answer. Brackets for loose pipes or wires, repairing the corners of boxes or picture frames, curing leaking pots, new handles for kettles, repairs to broken chair legs . . . there's no limit to the uses of JUNEERO in the home!

JUNEERO is a real engineering tool..

Because children love using JUNEERO, don't regard it as a toy! This patent multi-purpose tool played its part in Britain's war effort. Factories used it for training apprentices . . . it is used by Radio and Post Office mechanics, whilst many schools have JUNEERO sets for handicraft instructions. Yes, JUNEERO is a real Engineering Tool!

JUNEERO

*..the English
multi-purpose tool
that should
be in every
home.*

Stirling Corner, Boreham Wood, Herts.

JUNEERO

*what it is
and
what it does*

THE Juneero Patent Multi-purpose Tool is a correctly designed engineering device for making, modelling and mending in metal.

With it, special metal Strip, Angle Iron and Rod is supplied and many accessories, including Thread Cutting Die, Bolts, Nuts, Smooth and Corrugated Metal Plate, both plain and coloured, Cutting Shears, Glass Substitutes, etc.

It will cut Juneero metal Strip, Angle Iron or Rod to any desired measurement.

It will punch Juneero metal Strip and Angle Iron for bolting and riveting.

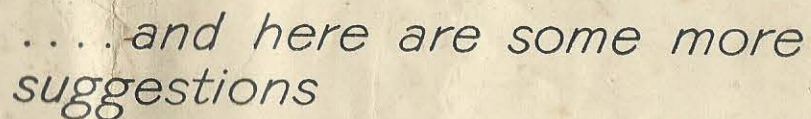

It will bend Juneero metal Strip and Rod as required.

It will hold Juneero metal Rod for thread cutting with die provided.

Instructions are supplied which enable all these operations to be done easily by the youngest novice.

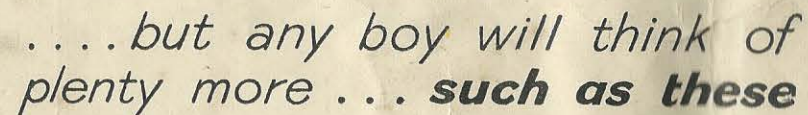

Overleaf will be found illustrations of some of the models, toys and household articles that are being made with JUNEERO. For repair work the JUNEERO Tool is invaluable.
