

# 3 WONDERFUL NEW ENGINEERING SETS BY LINCOLN

THESE WONDERFUL NEW ENGINEERING SETS BY LINCOLN ARE THE VERY LATEST DEVELOPMENTS FROM OVERSEAS.

The love of construction and experiment becomes evident very early in a child's life.

Engineering and building sets help develop these creative facilities and hold the interest of children over a longer period of time than any other toys.

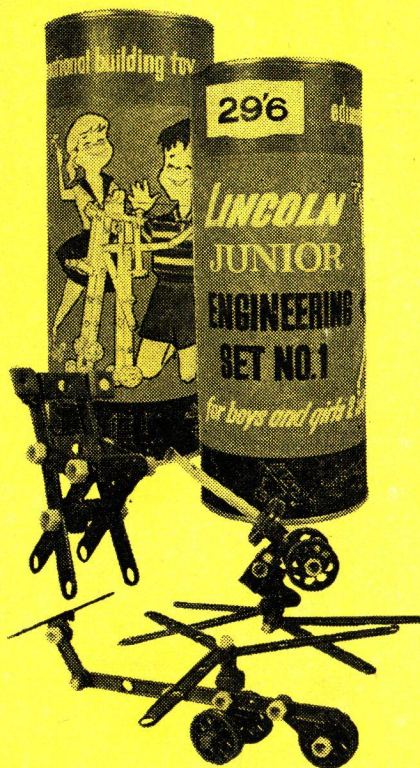

These sets are used throughout the various stages of play from 3-12 years.

**2101 Pressfix Engineering Set No. 1**  
19/11

The revolutionary Plastic-steel construction set for developing the engineering talent of boys and girls.

**2102 Pressfix Engineering Set No. 2**  
35/-  
Twice the size of Set No. 1.

**2110 Lincoln Junior Engineering Set** 29/6

So easy for young children to handle. There's literally "no end" to the number of models that can be made from this set. In fact there's no better toy for a boy or girl.
