MOTORIZED GIRDER & PANEL and BRIDGE & TURNPIKE BUILDING SET

Set No. 9 - The DELUXE Constructioner

BUILD IT... RUN IT...

Realistic POWER-OPERATED Structures with 2 MOTOR UNITS and 2 POWER UNITS operating independently

KURT'S from Mom and Dad

TRAVELING BOOM CRANE
Clear motor raises and lowers boom, the other operates the cable. You can build and operate many other kinds of cranes.

- This set contains 921 pieces:
- 279 Girders
 - 148 Girders & Tie Beams
 - 122 Bolt & Nut Panels
 - 22 Bolt-nut & Washers
 - 67 Building & Road Signs
 - 10 Flagpoles & 12 Flags
 - 2 Motors
 - 12 Movable Fasteners
 - 2 Motor Units
 - 2 Power Units
 - 2 Elevator Cables
 - 20 Elevator Cars
 - 12 Elevator Shafts
 - 12 Elevator Shafts & 12 Hooks
 - 2 Dials
 - 2 Sets of Elevator Ladders
 - 82 Miscellaneous Parts
 - 20 Instructional Planning Books

Easy-to-Use BASIC PARTS that SNAP TOGETHER

- Construct the framework of GIRDERSlike structural steel on masonry footings and foundations...
- Attach pulleys and cables and connect MOTOR and POWER UNITS for elevators and working mechanisms...
- Build on the walls and roofs of buildings with prefab. PANELS. Use BRACES and ROADWAYS for bridges, ramps and open structures.

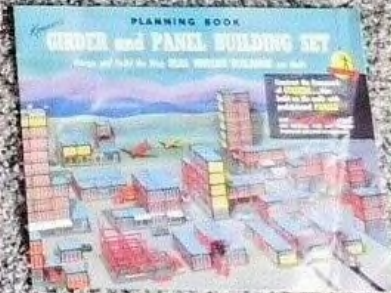

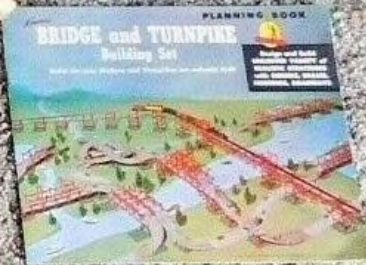

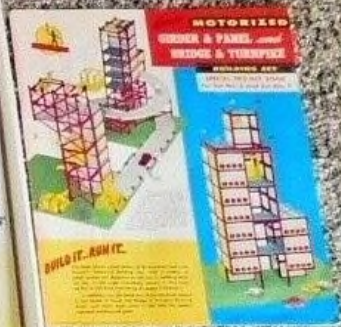

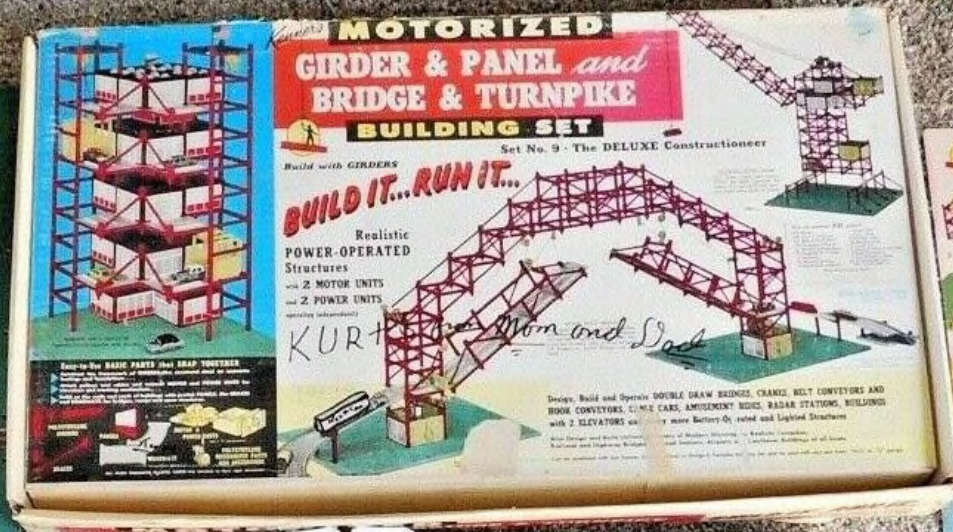

Design, Build and Operate DOUBLE DRAW BRIDGES, CRANES, BELT CONVEYORS AND HOOK CONVEYORS, CABLE CARS, AMUSEMENT RIDES, RADAR STATIONS, BUILDINGS with 2 ELEVATORS and many more Battery-Operated and Lighted Structures

Also Design and Build Unlimited Variety of Modern Skyscrapers, Realistic Turnpikes, Railroad and Highway Bridges, Road Stations, Airports and Cantilever Buildings of all kinds.

Can be combined with any Kenner Girders and Panels or Bridge & Turnpike Building Set and be used with any size train, "H-O" to "O" gauge.

MOTORIZED GIRDER & PANEL *and* BRIDGE & TURNPIKE

BUILDING SET

SPECIAL PROJECT BOOK
for Set No. 8 and Set No. 9

Here is an example of the tremendously interesting structures you can build with Set No. 9. This is a double Observation Tower. The elevator in the foreground takes passengers to the roof, from where they ride the Cable Car to the opposite tower. A Spiral Roadway is provided for those who prefer to drive up. (For another view of this structure see page 9.)

BUILD IT...RUN IT...

This book shows actual photos of 30 structures built with Kenner's Motorized Building Sets, with a number of detail photos and diagrams to aid you in building them. Set No. 9 will build everything shown in this book; Set No. 8 will build everything on pages 2 through 7.

In addition, you can build any of the structures shown in the Girder & Panel and Bridge & Turnpike Planning Books and make them come to life with the battery-operated mechanized parts.

This Elevator Building is easy to build with Set No. 8. You may want to try it as your first project with this set.

BRIDGE & ...

Also Design and Build Unlimited Railroad and Highway Bridges. Can be combined with any Kenner G

ity of Modern Skyscrapers, Realistic Turnpikes, Road Stations, Airports and Cantilever Buildings of all kinds. nel or Bridge & Turnpike Building Set and be used with any size train, "H-O" to "O" gauge.

BUILD IT... RAILROAD BRIDGE & TURNPIKE

BUILD IT... RAILROAD BRIDGE & TURNPIKE
RAILROAD BRIDGES, CRANES, TRUCKS, BUSES, BUILDINGS, CARS, AIRPORTS, AIRCRAFT, AND STATIONS

WORKING WITH ELEVATORS
Supports several elevators each floor.

Easy-to-use BASIC PARTS that SNAP TOGETHER

Construct the framework of **concrete** elevated road on a
footings and foundations...
Attach pulleys and cables and custom **MOTOR** and **POWER** to
structure and working mechanisms...
Build on the walls and roof of buildings with perfect **PANELS** for
and **ROADWAYS** for bridges, ramps and open streets.
