

MERKURE METROPOL

Czechoslovakia

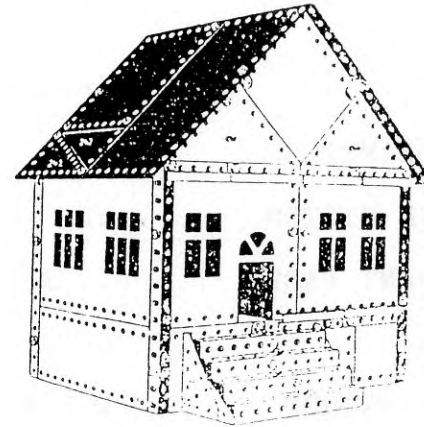

TYPE Architectural Construction
 HOLE DIAMETER 3.9mm HOLE SPACING 10mm
 SETS IN SYSTEM .
 DIFFERENT PARTS 40-Appears to use standard MERKUR parts as well as other parts.
 COLOUR .
 FIXING METHOD Nut and bolt (M3.5)
 MOTORS None
 PERIOD 1930s to about 1964
 MANUFACTURER Merkur Czechoslovakia.
 COMMENTS This is an Architectural system made by MERKUR , therefore compatible with the standard parts. From the model illustrations it is obvious that special 'architectural' parts were made. Only information available at this time, in 1993 when discovered, but name of system has been on lists since 1981.
